

Company History

Triparco Development Corporation (TDC) is an infrastructure development company that delivers quality services using proven technologies, systems and work processes that provide optimal results for its Clients. The company implements projects either alone or in partnership with its sister company, Equi-Parco Construction Company. The company integrates local supply chains providing employment and contribution to the development of the economy where its projects are implemented.

Triparco Development Corporation's customer, mostly government agencies, depend on the company to deliver complex and challenging construction projects nationwide, on-time and within budget. **For almost 20 years now, Triparco Development Corporation has** constructed vital infrastructures that drive progress and enable communities and economies to grow. **From its humble beginnings in January 1996,** the company has grown to become a respected player in the infrastructure industry with the timely completion of iconic and superior engineering feats.

The combined depth of Triparco Development Corporation's technical expertise and unparalleled dedication of its people makes TDC a true leader in the national infrastructure scene. The commitment and shared values that unite its employees give its stakeholders the confidence to do business with the company. TDC's employees also have a collective commitment to operate sustainably and safely. Figure 1 shows TDC's stakeholders.

Scope of the Quality Management System

Triparco Development Corporation is registered in the Securities and Exchange Commission to engage in construction and allied services. The company's PCAB license covers general engineering and general building construction. The established quality management system spans the company's construction processes and support processes in its Head Office in Ambangan, Ambago, Butuan City and all its project sites.

Section 5 of this Quality Management System Manual describes the context of the company's business model, and Section 6 describes its value chain. As TDC is a sister company of Equi-Parco Construction Company, systems and procedures of both companies are described and defined in a common Procedures Manual. Forms used to record transactions are likewise common to both companies. Section 8 of this Manual lists down the reference procedures used by the two companies.
